- Participating in classroom rituals

"...the power to learn languages is so great in the young child that it doesn't seem to matter how many languages you seem to throw their way. They can learn as many spoken languages as you allow them to hear systematically and regularly at the same time. Children just have this capacity. Their brain is just ripe to do this..."

-Dr. Susan Curtis, Professor of Linguistics, UCLA

**INTRODUCING**

# MAMAN ET MOI

French Immersion  
Parent & Tot program

562 Green Bay Road • Winnetka, IL 60093

*Maman et Moi* is a French immersion program catering to children aged 12 to 36 months and their moms, dads and caretakers.

Our goal is to give young toddlers a head start in French. Children learn traditional French songs and games in a nurturing and fun environment to help develop language and motor skills.

We take advantage of this critical time in your child's brain development to teach them a new language, which has been proven to have a positive effect on intellectual growth. Learning a foreign language at an early age has multiple benefits on later learning, such as enhancing verbal expression, analytical skills and mathematical problem solving.

Our school instills a passion for learning while having fun. The teachers are native speakers and are ready to share their country and culture with your little ones.

## FUN ACTIVITIES

- Singing and dancing
- Painting and visual arts
- Puppet shows and drama
- Puzzles and logic games
